

VMCC Norwich Section Picture Rally 2018.

All of the landmarks this year are public house signs (this includes hotels and Inns)

For each county you have four sheets to download

2 Sheets containing 16 Landmark locations & the questions for that Village or Town.

2 Sheets containing pub sign pictures (These pictures are not in any particular order)

For those who do not use computers please ask Mick Long for pre printed pack.

Instructions please read

- 1 Select a village or town to visit from the Landmark locations.
- 2 Either by research or by looking around the village find the names of the pubs in that village.
- 3 Now check the pub sign sheets to see if you have a match for the pub signs you are looking at, if you have a match you have found your landmark take a photograph of the pub sign if possible with your bike or crash helmet in the picture, please write the number of the Landmark on the photograph .
- 4 Answer the questions for that village or town found on the question sheet, there may be more than one question to answer, there is room for you to write your answers by the questions please do this even if you take a picture as well. Questions can be researched on the internet or by asking local people, the village church, war memorials and other public areas may yield information as also can a walk up the high street; we do not use the inside of a churches as they may at times be locked or a service may be in progress however do check out the porch if open.

You will need to take your pub sign identification sheet with you because more than one location will have a pub with the same name but the signs will differ and only by comparing the pub sign with the pictures on the sheet will you know you have located the right one.

In the event of there being more than one correct answer to a question the one we have on our master sheets will be judged as the correct one.

If you find any mistakes we have made please let us know so that we can put out a correction.
